A Zanzibar Company Built for Real Work

Zanzibar Trade & Investment Company Limited (ZTI) is a private company established in 2013 and registered in Zanzibar. From its base in Vuga, the company supports government institutions, contractors, companies, educational organisations and private clients with practical commercial and operational solutions.

The company is structured around one straightforward idea: understand the requirement, respond clearly and deliver what was agreed. This allows clients to work with one accountable team across materials, machinery, technical maintenance, logistics and business support.

ZTI corporate engagement and business development activity.

MISSION

To deliver professional and sustainable services to government, corporate, educational and business sectors through responsible business practices.

VISION

To be recognised as a leading provider of quality professional services in Zanzibar and across East Africa.

HOW WE WORK

Clear scope. Clear responsibility. Dependable delivery. Practical communication from request to completion.

Core Values

Integrity • Mutual Respect • Transparency • Teamwork • Commitment • Accountability • Trust • Confidentiality • Care for Stakeholders • Non-Discriminatory Service

Integrated Services for Projects & Enterprises

ZTI combines supply, fleet, technical and support capabilities so clients can coordinate more of the job through one commercial relationship. Every requirement is assessed by scope, quantity, location, timing and availability before quotation.

Construction Materials

Sand, aggregates, cement, steel, building blocks and related project materials.

Vehicle Rental

Commercial vehicles and executive transport for business, project and protocol needs.

Aluminium Systems

Installation, repair and maintenance of aluminium windows, doors and related systems.

Facility Maintenance

Routine facility support including refrigeration, cleaning, gardens and minor maintenance.

Logistics & Transportation

Construction material transport, cargo movement, equipment support and project logistics.

Equipment Rental

Excavators, loaders, backhoes, tippers, dumper trucks and project machinery.

Air Conditioning

Installation, servicing, repairs and preventive maintenance for commercial systems.

Fumigation & Pest Control

Professional pest-management support for institutions, offices and commercial premises.

Electrical & Electronic Supplies

Specified electrical, electronic and office equipment sourcing and supply.

Media & Advertising

Advertising placement, newspaper supply and public-notice support for institutions and businesses.

What Makes the Model Practical

- One accountable point of contact across multiple service categories.
- Quotations based on actual scope rather than generic public pricing.
- Local operating knowledge and supplier relationships in Zanzibar.
- Project support that can connect materials, fleet, transport and technical services.

Fleet & Equipment Ready for the Job

ZTI supports construction, logistics, operational and executive transport requirements. Fleet availability changes with active jobs, so the company confirms the right vehicle or machine against the dates, work location, capacity and operating requirement.

Commercial Trucks

Cargo, construction material and project logistics.

Executive & VIP Fleet

Premium vehicles for corporate, executive and protocol transport.

Excavators

Earthmoving, excavation and infrastructure work.

Tippers & Dumper Trucks

Sand, aggregates and construction-material movement.

Loaders & Backhoes

Loading, excavation and mixed site support.

Other Equipment

Specialist machinery and project equipment available on request.

A better rental request starts with four details

Tell us the machine or vehicle category, work location, required dates and the job to be performed. ZTI can then confirm suitability and availability.

Selected Project Experience

ZTI's project history includes contractors, public institutions and businesses. The selected engagements below demonstrate a mix of material supply, equipment hire and technical support.

CLIENT / PROJECT	SCOPE	LOCATION	PERIOD
CRJE	Dumper truck hire and local sand supply	Maruhubi & Saateni, Zanzibar	2019-2022

Local Knowledge. Serious Partnership.

For investors, developers, contractors and institutions entering or expanding in Zanzibar, ZTI can provide a local commercial partner with supplier relationships, operational capability and practical support from planning through execution.

Infrastructure

Construction supply, equipment and project-support collaboration.

Logistics & Cargo

Expansion of cargo transportation, project logistics and fleet capabilities.

Real Estate

Apartment and rental-property development opportunities in Zanzibar.

Construction Materials

Local production, distribution and broader material-supply opportunities.

Partnership starts with a clear commercial conversation

Share the project concept, location, timeline and the local capability you need. ZTI can assess where its operational network and service platform can add value.

Let's Talk About the Next Project

ZTI is positioned to support organisations that need a dependable local team across supply, machinery, transport, maintenance and project support. Contact the company directly and your enquiry will be routed to the appropriate team.
